Quick Reference Card for Yaesu FT–60R, courtesy W5JCK

Yaesu FT–60R: Memory Storage
Press **V/M** for **VFO mode**, tune the receive frequency.
Press **F/W** then **SET** to enter **Set mode**.
Set tone mode via Menu 48 **SQL.TYP**. Set tone frequency via Menu 50 **TN FRQ**.
Press **PTT** to save settings and exit **Set mode**.
Press and hold **F/W** for one second, turn to desired memory channel, press **F/W** again to store frequency.

Yaesu FT–60R: Miscellaneous Operations
TX Power: Press **F/W** then **TX PO** to change level.
Rev TX/RX: Press **HM/RV** (if Menu 36 is set to REV) or press **F/W** then **HM/RV** (if Menu 36 is set to HOME)
PRI channel: Store the frequency for the Priority Channel into Memory Channel 1**.**
Dual Watch: Press **F/W** then **PRI** to activate.
Lock Keypad: Press and hold **LOCK** for one second.

Instructions: Print on a heavy card-stock paper. (Paper designed for printing photos will work well.) Cut out each (side-by-side) pair, then fold over so that Memory Storage appears on one side and Miscellaneous Operations appears on the other. Laminate and trim to the size of a credit card. It is now easily carried in your wallet or even in your ID badge holder.
